

MD 32 Planning Study Public Workshop June 9, 2016

The Maryland Department of Transportation's State Highway Administration (SHA), invites interested persons to attend a Public Workshop for the MD 32 Planning Study, which is located between I-70 in Howard County and MD 26 (Liberty Road) in Carroll County, Maryland. The study will assess the area's transportation needs and develop concepts for short-term improvements, as well as a long-term transportation vision for the MD 32 corridor.

The Public Workshop will present exhibits for MD 32 with information on identified deficiencies and needs, a draft vision and goals for the future of the corridor, findings from the online public survey and stakeholder input, traffic and crash data, conceptual ideas under consideration and a public comment/feedback station. The workshop will provide an opportunity for study team members to hear your study-related comments, explain the planning process and share preliminary information described above. You may arrive any time during workshop hours and go through at your own pace. **There will be no formal presentation.**

For additional information, visit www.roads.maryland.gov and click on **Projects, SHA Projects Page, Carroll or Howard County, MD 32 (Sykesville) – I-70 to MD 26** or use the QR code.

Attend the Public Meeting!
