

### PROJECT BACKGROUND

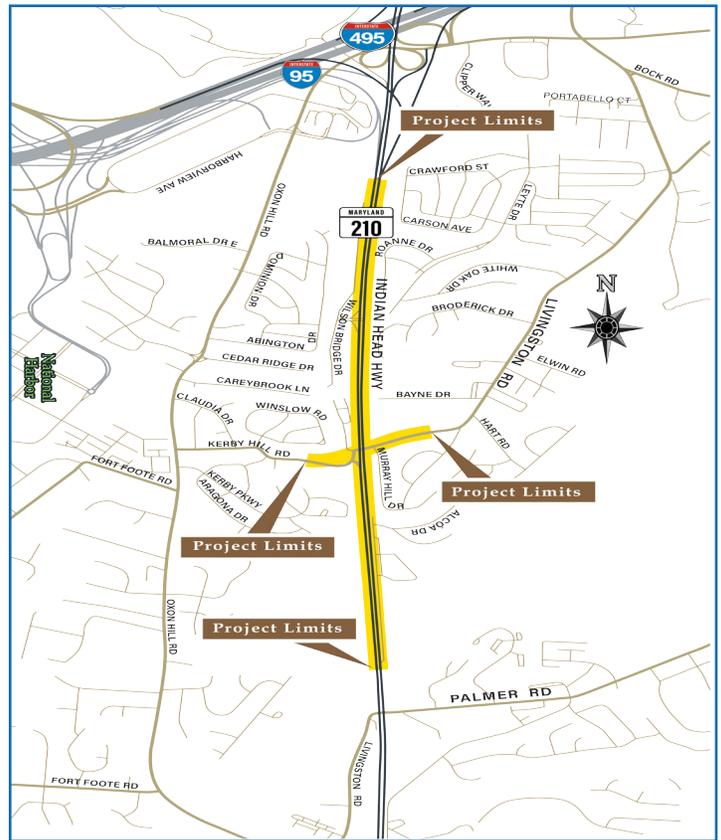

The Maryland Department of Transportation's State Highway Administration (SHA) has begun making improvements along MD 210 (Indian Head Highway) from south of I-495/I-95 to north of Palmer Road in Prince George's County. The project will replace the existing at-grade intersection of Kerby Hill Road/Livingston Road at MD 210 with a grade-separated interchange and access ramps.

The project will include the following improvements:

- Remove the at-grade intersection of Kerby Hill Road/Livingston Road at MD 210 and replace with a grade-separated interchange
- Elevate and realign Kerby Hill Road to connect with Livingston Road over MD 210
- Construct a new service road to access the Wilson Towers Apartments and Brookside Park Condominiums
- Remove the traffic signal at the intersection of Wilson Bridge Drive and MD 210
- Add new facilities for pedestrians and bicyclists
- Construct noise barriers along both sides of MD 210
- Upgrade drainage systems and construct new stormwater management facilities

### OVERALL PROJECT STATUS

- Design activities are nearly complete.
- Utility relocation activities started in fall 2015 and are ongoing.
- House demolitions on properties acquired by SHA for the project are ongoing.
- Noise wall construction will begin on the northbound side of MD 210 and is slated to begin this fall.
- Faster paced construction activities will begin later this fall.

### TRAFFIC PATTERN UPDATES

- Sections of the shoulders along MD 210 north and southbound have been closed.
- Full shoulder closures within the project limits will occur with the start of noise wall construction.
- There will continue to be periodic lane closures along north and southbound MD 210 that occur in the off-peak periods.
- **DURING PEAK HOURS, ALL THROUGH LANES WILL REMAIN OPEN FOR TRAFFIC.**
- Please remember that walking along MD 210 is prohibited. Eliminating the bus stops on MD 210 in June 2016 has removed allowable pedestrian uses on the shoulders of MD 210.
- Transit riders may access the WMATA D13/D14 at Wilson Bridge Drive and Livingston Road.
- Pedestrians may access Livingston Road bus stops by crossing MD 210 at the existing crosswalks
