

**STATE OF MARYLAND
DEPARTMENT OF TRANSPORTATION
STATE HIGHWAY ADMINISTRATION**

NOTICE

The purpose of this Notice is to advise Contractors and Engineering Consultant firms that the State Highway Administration (SHA) will be holding an INFORMATIONAL MEETING on the CONSTRUCTION MANAGEMENT AT RISK (CMAR) project delivery method.

Description:

CMAR is a project delivery method where a construction manager is procured utilizing the Competitive Sealed Proposal process to provide a range of preconstruction services to SHA during the design phase of a project. These services may include, but are not limited to, constructability analysis, value engineering, scheduling, site assessments, and cost estimating. The Construction Manager would act as a general contractor during the construction phase upon agreement with SHA to deliver the project at an agreed upon price.

The SHA is looking to pilot the CMAR project delivery process in 2013. An informational meeting will be held with the contracting and consultant engineering industries to present the SHA's proposed approach to CMAR and to solicit industry input and feedback prior to issuing any Request for Proposals. This meeting will be held on Thursday, July 18, 2013 beginning at 9 AM at:

SHA Headquarters,
Training Rooms 3 and 4
211 East Madison Street
Baltimore, Maryland 21202

The presentation will include the following parts:

- 1) An overview of the CMAR project delivery process.
- 2) The SHA's planned approach to the Competitive Sealed Proposal procurement process for CMAR.
- 3) A brief, general introduction of the proposed MD 24 pilot project.
Note that a separate pre-proposal meeting will be scheduled at a later date to discuss project specific details.

If you need additional information prior to this presentation, please contact Mr. Jeffrey T. Folden at jfolden1@sha.state.md.us.
