Motter Avenue Bridge Project

Construction Update

July 16, 2014

Crews place stone for road widening on northbound US 15. (July 16, 2014)

Please drive carefully through the work zone and beyond:

- Observe new signs and flaggers during lane closures.
- Watch for construction equipment and working crews.
- Automated speed enforcement is in place on US 15. The speed limit is 55 mph.

Crews weld deck pans for the final stage of construction on the Motter Avenue Bridge over US 15. (July 16, 2014)

Recent Accomplishments:

1. Crews have completed the entrance to the Exxon station.
2. Crews have completed a retaining wall in front of the bridge abutment (end support) off of the southbound shoulder of US 15.
3. Crews have been working on storm drain installation along Motter Avenue/Opossumtown Pike.
4. Crews have completed setting the steel girders for the final section of the Motter Avenue bridge over US 15 (pictured at lower left).
5. Crews have preparing for installation of a new concrete median on Opossumtown Pike.

Upcoming work schedule:

1. Crews will continue working on the final section of new bridge., including installing deck pans and rebar, then pouring the concrete deck.
2. Crews will continue installing storm drain structures on Motter Avenue/Opossumtown Pike.
3. Crews will place concrete for curbs and gutters and for sidewalk.
4. Crews will begin working on road widening on northbound US 15 for the lengthened deceleration lane approaching the Motter Avenue exit.

On behalf of Maryland State Highway Administration (SHA), I would like to thank you for your cooperation and patience. Please drive with caution through our work zone.
