PROJECT UPDATE

The I-70 Phase 2D project is in its 7th month of design and 2nd month of construction.

Construction activities completed last month included the installation of sediment controls along the four corners of the existing I-70 bridge over South St., temporary pier support construction to the existing bridge over South St., and I-70 WB/EB traffic at the bridge over South St.

Construction activities scheduled for this month include sanitary sewer work along South St., placement of earth fill at the four corners of the existing I-70 bridge over South St., and partial demolition of the existing bridge over South Street.

Construction activities for next month include bridge foundations and retaining wall installation between I-70 EB & Lafarge quarry.

For everyone's safety, please drive carefully, stay alert and reduce speed when traveling within the project work zone.

WE REQUEST THAT THE PUBLIC NOT TRESPASS IN CONSTRUCTION AREAS.
