

MD 32 Linden Church Interchange

Project Construction Update

August 2012

This picture shows the existing signalized intersection of West Linden Church Road and MD 32.

- Please watch for new traffic patterns.
- Observe new signs and flaggers during lane closures
- Please drive carefully through work zone and beyond
- Watch for construction equipment and working crews this summer.

This picture shows the new temporary signal pole for the left turn from northbound MD 32 to West Linden Church Road.

Contract Award:

The project contract was awarded to the design/build team of RK&K Engineers of Baltimore, Md., and Concrete General Inc. of Gaithersburg, Md.

RK&K will be working with Concrete General to design the roadway and bridge over MD 32. This is a “rolling design” process and will continue through the remainder of design and construction.

Concrete General and its subcontractors will perform all construction.

Current Progress:

1. We have started to install temporary traffic signs.
2. We have installed a temporary signal pole at the intersection of West Linden Church Road and MD 32 (pictured at lower left).

Upcoming Work:

1. Continue “rolling design” process.
2. Continue to install temporary traffic signs.
3. Remove the existing median on MD 32 at West Linden Church Road and make the temporary signal operational.

On behalf of Maryland State Highway Administration, I would like to request your cooperation and patience. Please drive with caution through our work zones.

Brian Pickens

Construction Project Engineer
